JAVA and Angular Developers (CGI)

Find similar career opportunities

Category:
Development/Engineering

City:

Toronto, Ontario, Canada

Position ID:
J1217-1741

Employment Type:

Full Time

Position Description:

CGI is experiencing a significant growth in new digital transformation projects involving Emerging Technologies around Java and Angular based interfaces.
This has resulted in an increased demand for supplementing our Development teams with proven (5-7 years) Java and Angular development expertise.

Your future duties and responsibilities:

These are exciting new development projects across all business sectors - Banking, Retail, Telco, Insurance...

Working with the newest emerging technologies, you will be involved with performing analysis and design to develop the best solution and then driving the delivery of your solution.
These are large enterprise projects, complex and integrated applications. A guaranteed challenge and opportunity to learn at the same time.

Required qualifications to be successful in this role:

These positions require a minimum of 5 years Java Development experience combined with Agile expertise.
